- Deploy and system management

Work experience

Software developer

30/04/2015 – Current

Freelance | Italy

Development and maintenance of web applications, portals and management systems for clients across different industries.

Full project lifecycle management: requirements analysis, development, testing, deployment and ongoing maintenance.

Creation of high-traffic web platforms, integration of third-party services through APIs, and development of custom-tailored solutions.

Work with PHP, MySQL, JavaScript, Bootstrap

C&C Milano – Fashion Industry Web Platform

Full development of a multilingual web platform for the fashion industry.

The system allows management of content, users and products, with both a public-facing interface and an administrative back office.

JobTalent – Job Search Platform

Full development of a web platform for publishing and managing job listings.

The system is used by over 8,000 users and handles more than 800 active job offers.

It includes user registration, profile management, job posting, admin panel and advanced search features.

Insurance Broker Management Systems

Development of two web-based management systems for an insurance brokerage company:

- an internal management system for customers and policies
- an online platform for generating insurance quotes
- Both systems are fully integrated with databases and external services.

Additional projects available at matcode.dev

IT Manager

31/10/2013 – 28/02/2015

CloudCare s.r.l | Novara, Italy

- Development and maintenance of **web chat software** for online sales support
- Development of **landing pages**
- Use of **PHP, Bootstrap and API integrations**

Co-Developer

29/02/2012 – 30/09/2012

Coffeemesh s.r.l | Novara, Italy

Co-developer in the design and development of the **Coffeemesh social network**, written entirely from scratch using **PHP, jQuery, CassandraDB and MySQL**.

TV Interviewer

31/07/2011 – 31/05/2012

RAI – Radio Televisione Italiana S.P.A | Milano, Italy

I took part for a short period in the TV program “**TV Talk**” on **Rai 3** as a television analyst.

🎓 Education & Training

Diploma on IT

ITIS Fauser | Novara, Italy

30/11/2004 – 30/11/2009

↔ Recommendations

CloudCare s.r.l

Matteo is extremely detail-oriented and achieved great results while working with us. His expertise in MVC, PHP, chats, websockets and AJAX makes him a very solid developer.

Viral Idea Project s.r.l

Matteo worked on the project demonstrating professionalism, competence and great availability. He integrated seamlessly with our team.

ComeStudio

I have known Matteo for a few months and we have already collaborated on several projects. I will definitely keep relying on him thanks to the professionalism he has demonstrated. Clear communication, availability and proactive suggestions make him a reliable partner that I gladly recommend to other agencies.

+ My strengths

Attitude

Passionate about programming, I approach new challenges and technologies with enthusiasm.

I constantly strive to improve myself and to create innovative solutions.

Professional Objective

My goal is to find a remote developer position in an environment that values my experience and creativity.
